

For changes in the authorship of manuscripts, Frontiers requires that all authors complete and sign the 'Authorship Change' form. Please note that the added/removed author must also sign this form as a way of consenting to his/her name being added/removed to the author list and of agreeing to the new Author Contribution, Conflict of Interest and Acknowledgment sections.

In accordance with the ICMJE guidelines, when determining authorship the following criteria should be observed:

- Substantial contributions to the conception or design of the work; or the acquisition, analysis, or interpretation of data for the work; AND
- Drafting the work or revising it critically for important intellectual content; AND
- Final approval of the version to be published; AND
- Agreement to be accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

Contributors who meet fewer than all 4 of the above criteria for authorship should not be listed as authors, but they should be acknowledged (as per ICMJE guidelines).

If you have any questions please contact us.

Please note that we cannot proceed until this issue has been resolved.

Note that the form should be manually signed or contain valid e-signatures (an electronic version of a signature that can be uniquely identified and linked to the signatory, as shown in the example below). Typed names are not considered valid e-signatures.

Should you provide a form with invalid signatures, we will not be able to consider your request for authorship change.
