

### AZ-BNT-BNT

### BNT-BNT-BNT

**Figure S1: Timeline of heterologous and homologous vaccination and study sampling events.** Syringes mark days of vaccine administration (AZ: ChAdOx1; BNT: BNT162b2). Blood was drawn prior to first vaccination (day 0) and on indicated days or weeks (18w, 12w) post last vaccination event. Created with BioRender.com.
