

Supplementary Material

1.1 Supplementary Figure

Supplementary Figure 1. The relative contents of 53 differential metabolites among 7 groups. Data were analyzed by One-way ANOVA analysis and represented as means \pm SD (n = 6). (C: control group, M: model group, P: cisplatin group, L: low-dose GYP group, H: high-dose GYP group, PL: cisplatin + low-dose GYP group, PH: cisplatin + high-dose GYP group; vs. Control group, *p < 0.05, **p < 0.01, ***p < 0.001; vs. Model group, *p < 0.05, **p < 0.01, ***p < 0.001).
