

Figure S1 (a).SNP level forest plot for family Porphyromonadaceae on Sjogren's syndrome. (b). SNP level forest plot for genus Subdoligranulum on Sjogren's syndrome. (c).SNP level forest plot for genus Fusicatenibacter on Sjogren's syndrome. (d).SNP level forest plot for genus Ruminiclostridium9 on Sjogren's syndrome. (e).SNP level forest plot for genus Butyricoccus on Sjogren's syndrome. (f).SNP level forest plot for genus LachnospiraceaeUCG008 on Sjogren's syndrome.

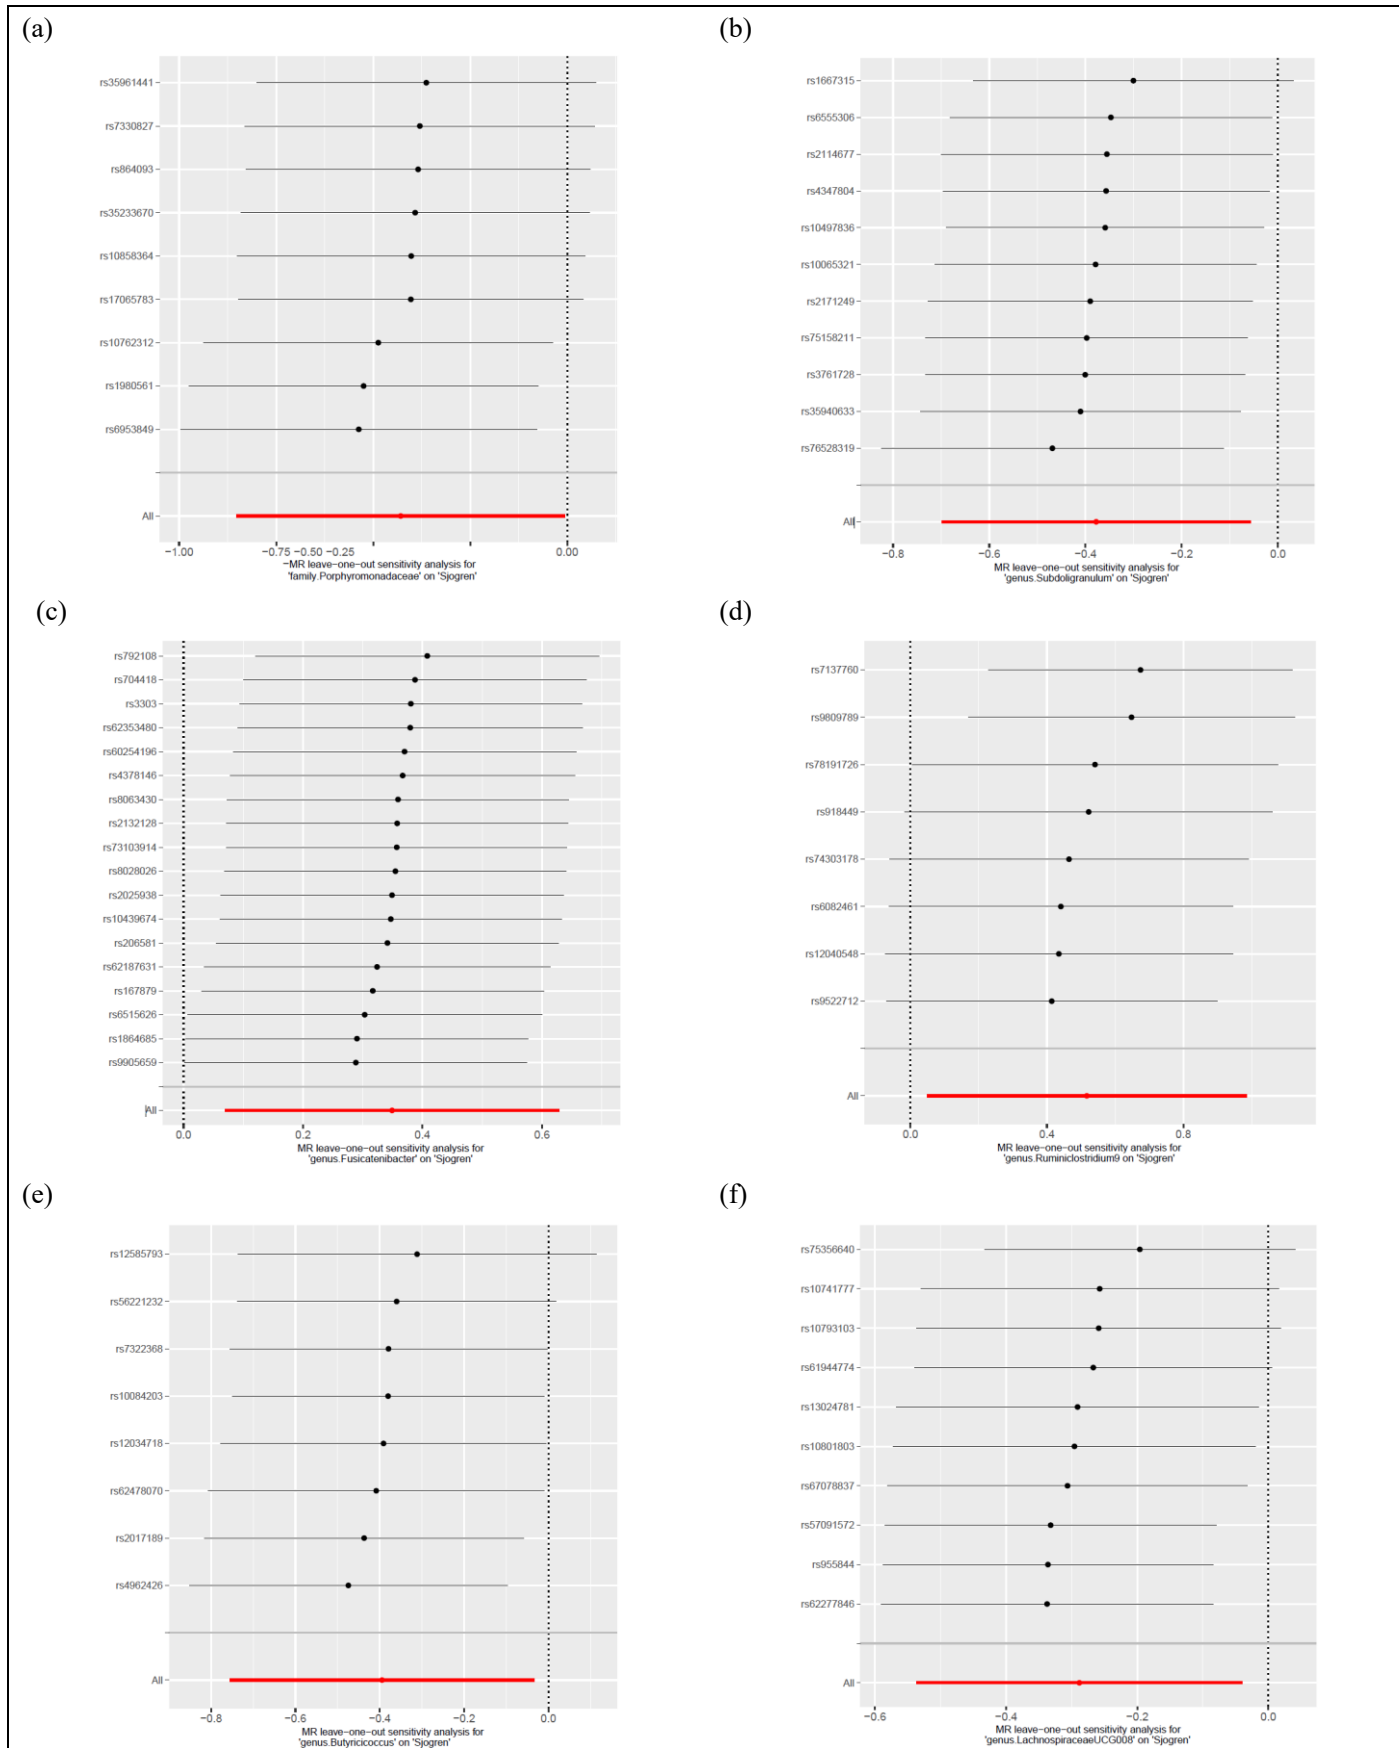

Figure S2 (a). Leave-one-out plot for family Porphyromonadaceae on Sjogren's syndrome. (b). Leave-one-out plot for genus Subdoligranulum on Sjogren's syndrome. (c). Leave-one-out plot for genus Fusicatenibacter on Sjogren's syndrome. (d). Leave-one-out plot for genus Ruminiclostridium9 on Sjogren's syndrome. (e). Leave-one-out plot for genus Butyricicoccus on Sjogren's syndrome. (f). Leave-one-out plot for genus LachnospiraceaeUCG008 on Sjogren's syndrome.
