

Supplemental Figure 1. Decreased plasma sphingolipid concentrations in non-fasted Abca1 HSKO mice

Plasma sphingoid base profile in non-fasting WT and Abca1 HSKO mice (**A**) C₁₇SO, C₁₈SO, C₁₈SA and C₁₈SA diene and (**B**) C₁₆SO, C₁₉SO, C₂₀SO, C₂₀SA and doxSA were quantified. Data are presented as mean ± SEM. WT (n=7) HSKO (n=9), Student t test, *p < 0.05, ** p<0.01
