

Figure S1. Vaginal smears of female *Cricetulus barabensis* in estrous cycle. **(A)** Nucleated epithelial cells. **(B)** Cornified squamous epithelial cells. **(C)** Leukocytes. **(D)** Proestrus. **(E)** Estrus. **(F)** Metestrus. **(G)** Diestrus. Black arrow in **(D)** indicate nucleated epithelial cells. Red arrows in **(E)** and **(F)** highlight representative cornified squamous epithelial cells. Blue arrows in **(F)** and **(G)** point to leukocytes.
