## 1. Supplementary Figures

### 1.1 Supplementary Figure 1a. Scatter plot for depression on IAs.

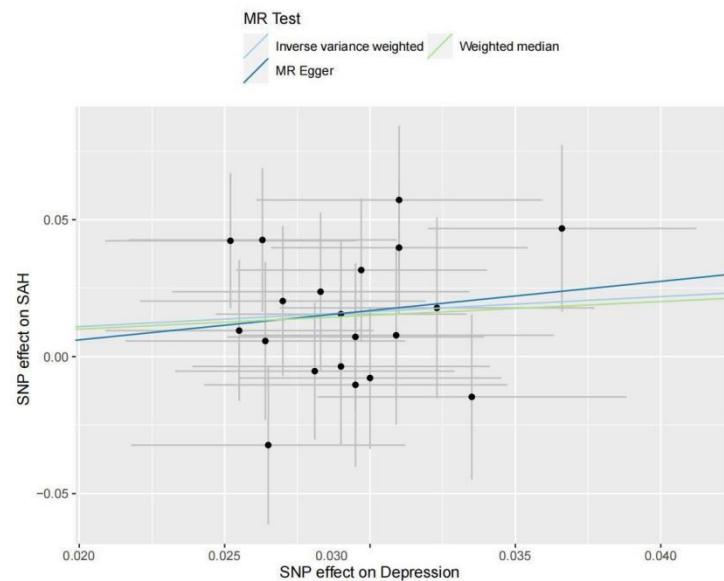

IAs, intracranial aneurysms; MR, Mendelian randomization; SNP, single nucleotide polymorphism.

## 1.2 Supplementary Figure 1b. Scatter plot for depression on uIA.

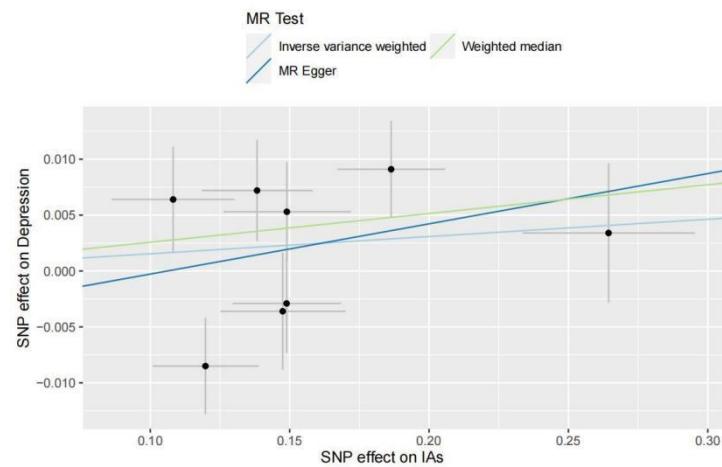

uIA, unruptured intracranial aneurysm; MR, Mendelian randomization; SNP, single nucleotide polymorphism.

## 1.3 Supplementary Figure 1c. Scatter plot for depression on SAH.

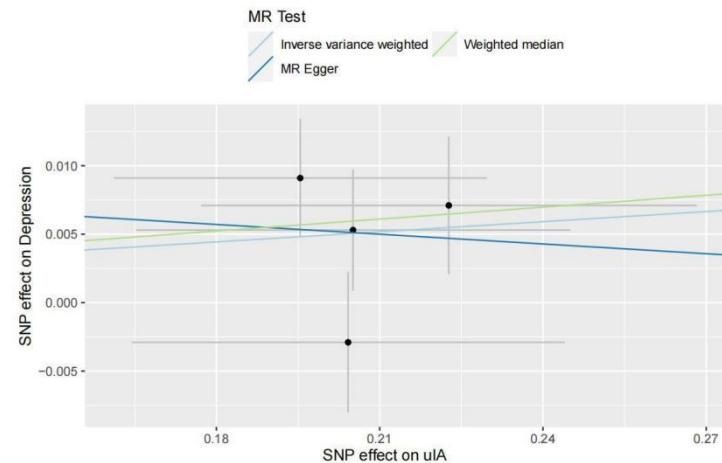

SAH, subarachnoid hemorrhage; MR, Mendelian randomization; SNP, single nucleotide polymorphism.

#### 1.4 Supplementary Figure 1d. Scatter plot for IAs on depression.

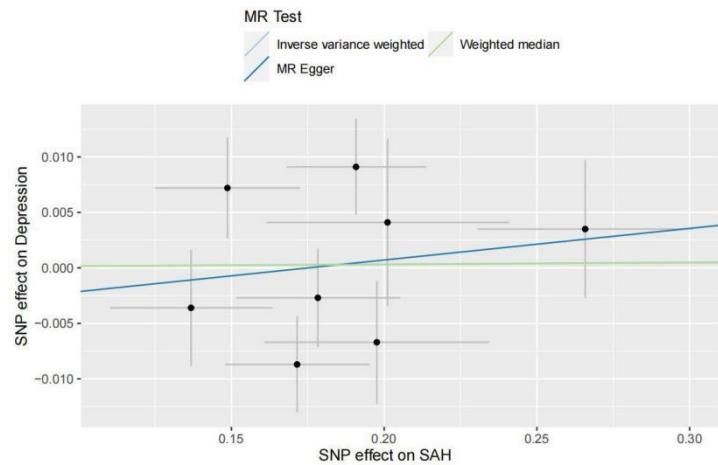

IAs, intracranial aneurysms; MR, Mendelian randomization; SNP, single nucleotide polymorphism.

1.5 **Supplementary Figure 1e.** Scatter plot for uIA on depression.

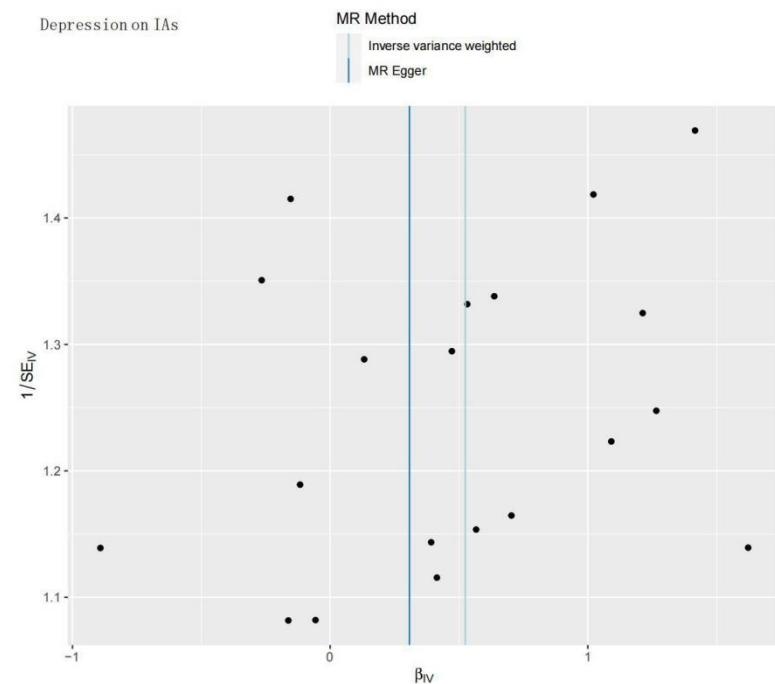

uIA, unruptured intracranial aneurysm; MR, Mendelian randomization; SNP, single nucleotide polymorphism.

## 1.6 Supplementary Figure 1f. Scatter plot for SAH on depression.

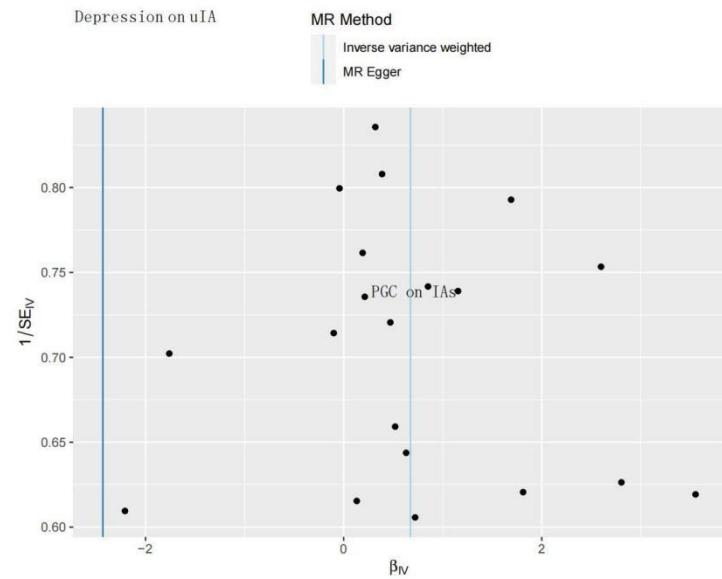

SAH, subarachnoid hemorrhage; MR, Mendelian randomization; SNP, single nucleotide polymorphism.

## 1.7 Supplementary Figure 2a. Funnel plot for depression on IAs.

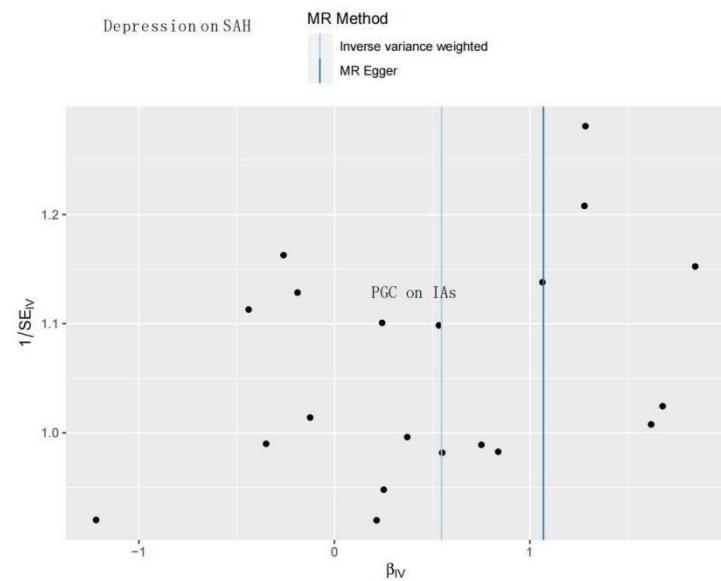

IAs, intracranial aneurysms; MR, Mendelian randomization; IV, instrumental variable; SE, standard error.

### 1.8 Supplementary Figure 2b. Funnel plot for depression on uIA.

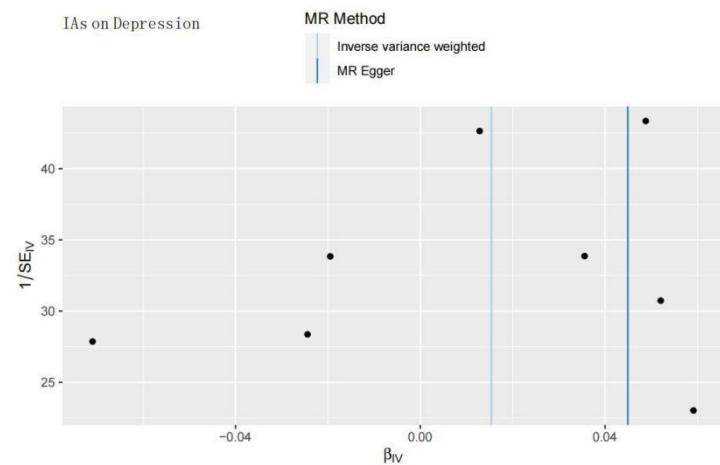

uIA, unruptured intracranial aneurysm; MR, Mendelian randomization; IV, instrumental variable; SE, standard error.

## 1.9 Supplementary Figure 2c. Funnel plot for depression on SAH.

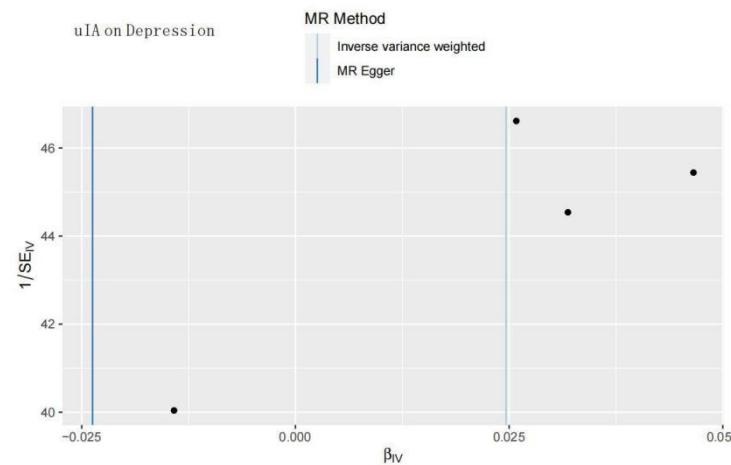

SAH, subarachnoid hemorrhage; MR, Mendelian randomization; IV, instrumental variable; SE, standard error.

1.10 **Supplementary Figure 2d.** Funnel plot for IAs on depression.

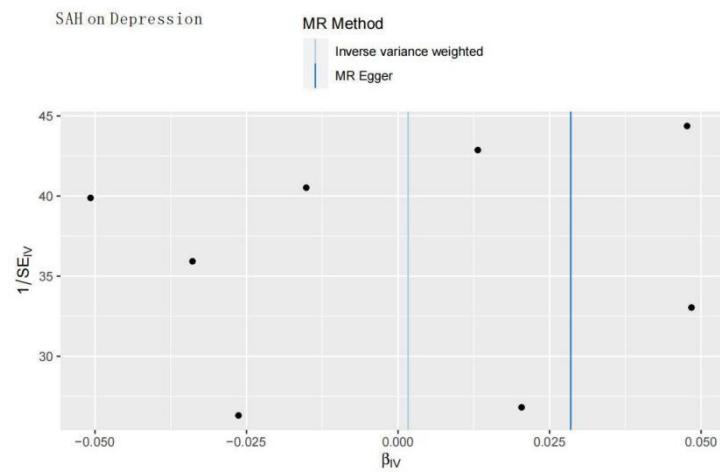

IAs, intracranial aneurysms; MR, Mendelian randomization; IV, instrumental variable; SE, standard error.

## 1.11 Supplementary Figure 2e. Funnel plot for uIA on depression.

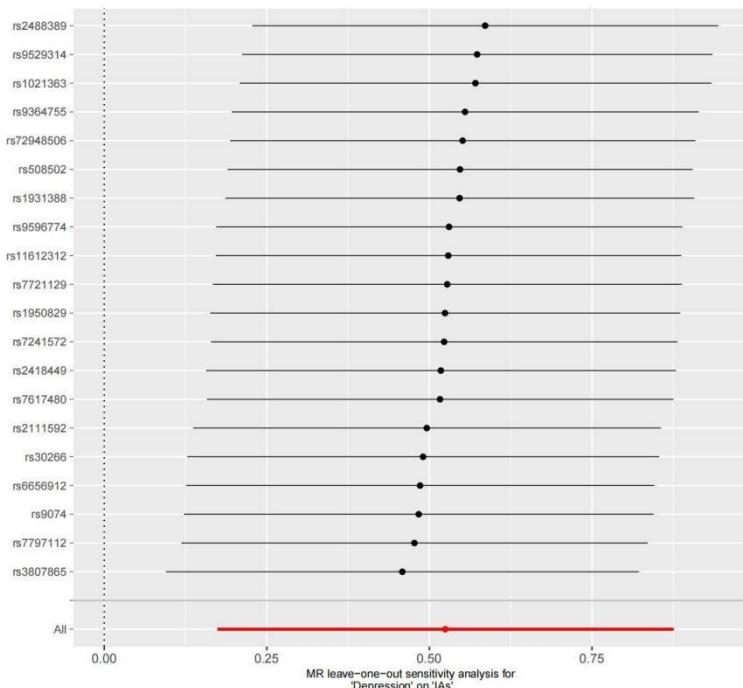

uIA, unruptured intracranial aneurysm; MR, Mendelian randomization; IV, instrumental variable; SE, standard error.

1.12 **Supplementary Figure 2f.** Funnel plot for SAH on depression.

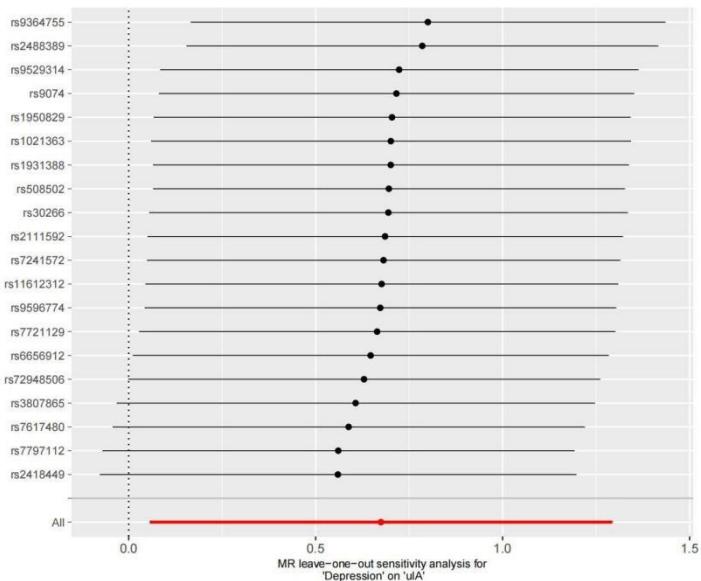

SAH, subarachnoid hemorrhage; MR, Mendelian randomization; IV, instrumental variable; SE, standard error.

## 1.13 Supplementary Figure 3a. Leave-one-out graph for depression on IAs.

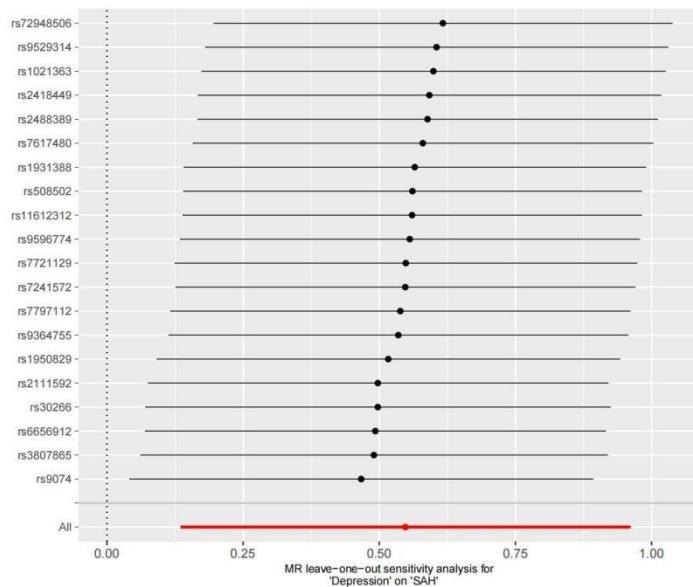

IAs, intracranial aneurysms; MR, Mendelian randomization.

1.14 **Supplementary Figure 3b.** Leave-one-out graph for depression on uIA.

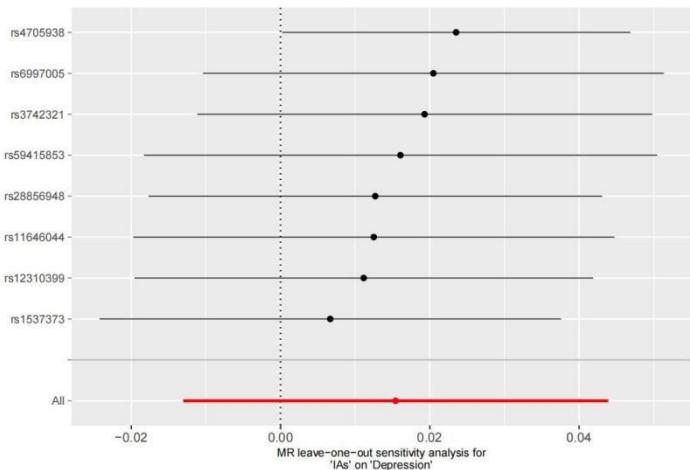

uIA, unruptured intracranial aneurysm; MR, Mendelian randomization.

## 1.15 Supplementary Figure 3c. Leave-one-out graph for depression on SAH.

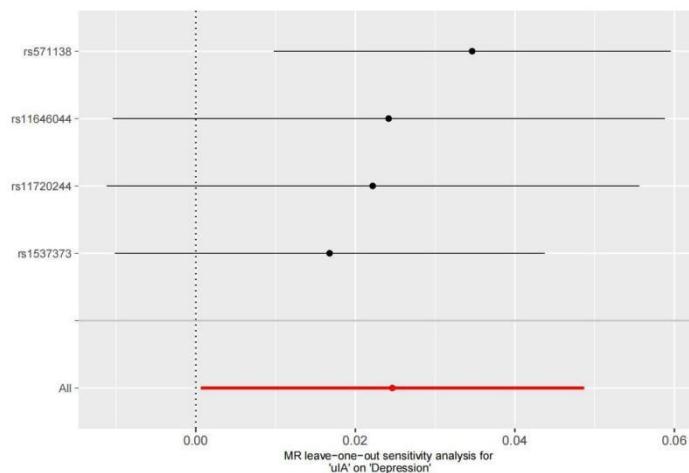

SAH, subarachnoid hemorrhage; MR, Mendelian randomization.

1.16 **Supplementary Figure 3d.** Leave-one-out graph for IAs on depression.

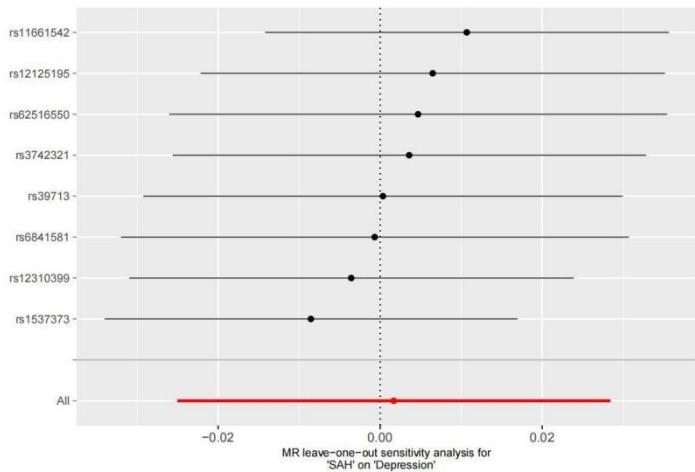

IAs, intracranial aneurysms; MR, Mendelian randomization.

1.17 **Supplementary Figure 3e.** Leave-one-out graph for uIA on depression.

uIA, unruptured intracranial aneurysm; MR, Mendelian randomization.

1.18 **Supplementary Figure 3f.** Leave-one-out graph for SAH on depression.

SAH, subarachnoid hemorrhage; MR, Mendelian randomization.

## 2. Supplementary Tables

2.1 **Supplementary Table 1:** Confounders/outcomes-related SNPs excluded from IVs that were screened based on the genome-wide significance threshold ( $p < 1e-5$ ).
