

Supplementary Material

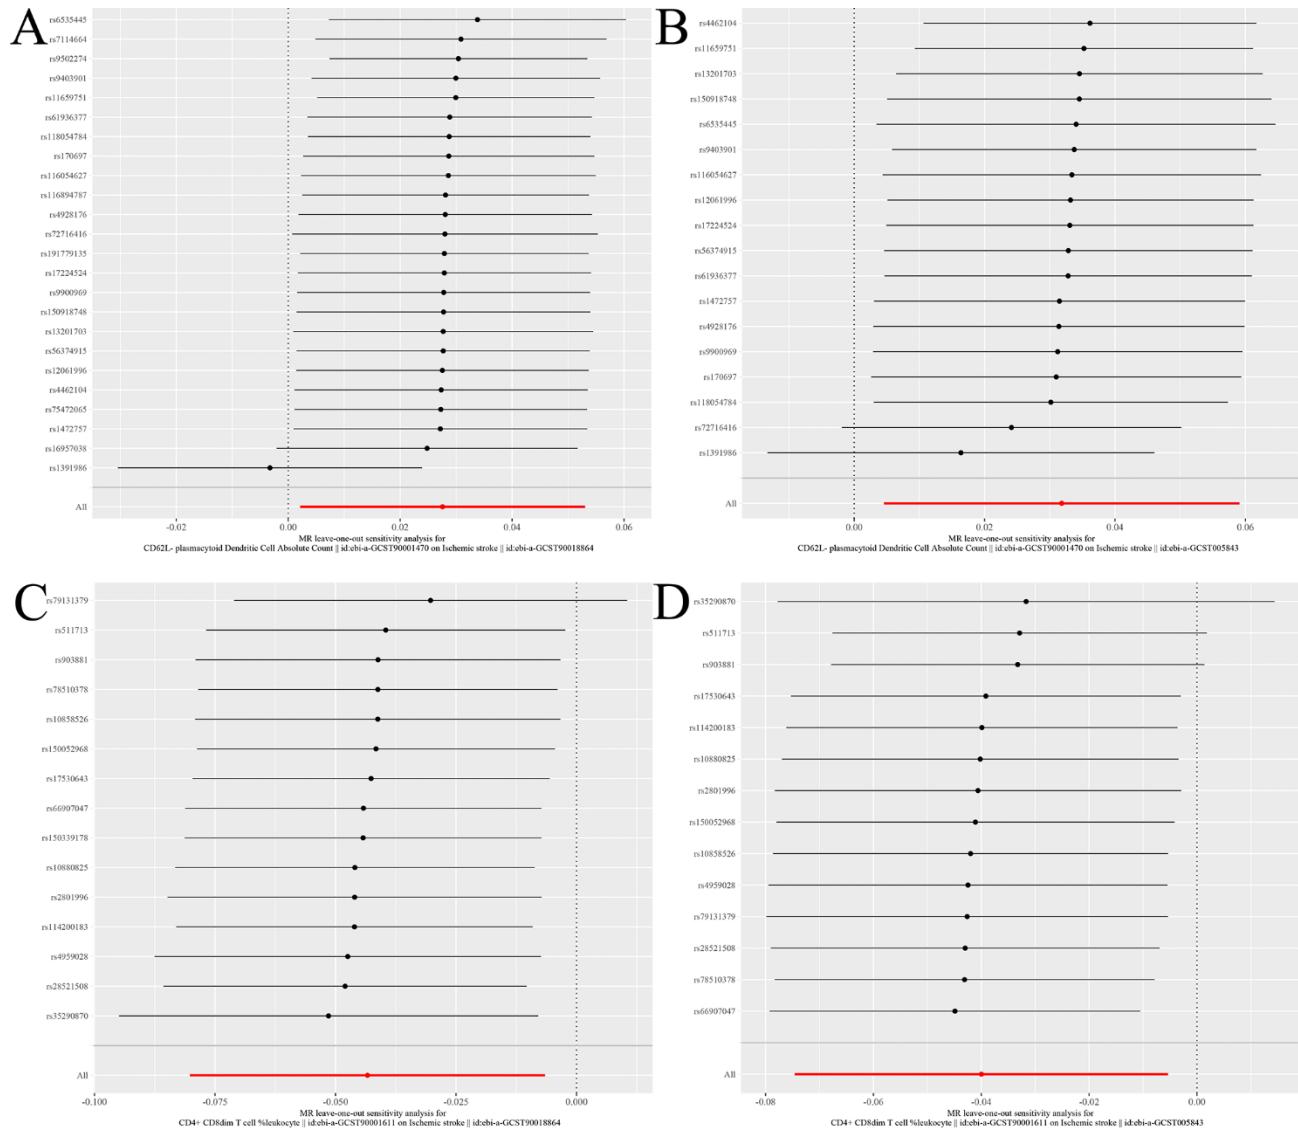

Supplementary Figure 1. Scatter plots for the causal effects of immune cell traits on IS risk. **(A)** *CD62L- plasmacytoid Dendritic Cell Absolute Count* on IS risk based on discovery dataset. **(B)** *CD62L- plasmacytoid Dendritic Cell Absolute Count* on IS risk based on validation dataset. **(C)**

CD4+ CD8dim T cell %leukocyte on IS risk based on discovery dataset. **(D)** *CD4+ CD8dim T cell %leukocyte* on IS risk based on validation dataset.

Supplementary Figure 2. Funnel plots for the causal effects of immune cell traits on IS risk. **(A)** *CD62L- plasmacytoid Dendritic Cell Absolute Count* on IS risk based on discovery dataset. **(B)** *CD62L- plasmacytoid Dendritic Cell Absolute Count* on IS risk based on validation dataset. **(C)** *CD4+ CD8dim T cell %leukocyte* on IS risk based on discovery dataset. **(D)** *CD4+ CD8dim T cell %leukocyte* on IS risk based on validation dataset.

Supplementary Figure 3. Leave-one-out sensitivity analyses of the causal effects of immune cell traits on IS risk. **(A)** *CD62L- plasmacytoid Dendritic Cell Absolute Count* on IS risk based on discovery dataset. **(B)** *CD62L- plasmacytoid Dendritic Cell Absolute Count* on IS risk based on validation dataset. **(C)** *CD4+ CD8dim T cell %leukocyte* on IS risk based on discovery dataset. **(D)** *CD4+ CD8dim T cell %leukocyte* on IS risk based on validation dataset.
