

Bt Jute Expressing Fused δ -Endotoxin Cry1Ab/Ac for Resistance to *Lepidopteran* Pests

Majumder S, Sarkar C, Saha P, Gotyal BS, Satpathy S, Datta K, Datta SK (2017)

Front Plant Sci 8:2188. doi: 10.3389/fpls.2017.02188

Supplementary Figure S1 qRT-PCR analysis of mRNA transcript of T₂ and T₃ transgenic plants. (A) qRT-PCR analysis of T₂ transgenic progeny plants (B) qRT-PCR analysis of T₃ transgenic progeny plants. Each bar represents the mean \pm standard error (SE) of 3 independent experiments and qualified $P < 0.05$ in the Tukey's multiple comparisons test. Here *cry1Ab/Ac* gene expression was calculated on the basis of internal control *26S rRNA* gene expression.
