NOTES:

MCP - metacarpophalangal joint. This is the joint of a finger closest to the palm

PIP - proximal interphalangeal joint. This is the middle joint of a finger

DIP - distal interphalangeal joint. This is the joint of the finger furthest from the palm

CMC - carpometacarpal joint. This is the joint of the thumb closest to the palm

IP - interphalangeal joint. This is the joint of the thumb furthest from the palm

The units for each type of percept are as follows:

Position (rads)

Velocity (rads/s)

Load/Torque (Nm)

Temperature (degC)
