

Supplementary Material

1 Supplementary Figures

Supplementary Figure 1: Developmental serial of *Sinningia brasiliensis* (K024074), *Sinningia eumorpha* (K039133), *Sinningia magnifica* (K039166), *Sinningia nordestina* (K039168), *Sinningia sceptrum* (K039182), and *Sinningia speciose* (K039190). V_R : random mode of variegated pattern; V_V : vascular mode of variegated pattern; G_D : distal mode of gradient pattern; G_P : proximal mode of gradient pattern.

Supplementary Figure 2: Homologous ROI of *Sinningia brasiliensis*.

Supplementary Figure 3: Homologous ROI of *Sinningia aghensis*, *Sinningia allagophylla*, *Sinningia carangolensis*, *Sinningia polyantha*, and *Sinningia pusilla*. Scale bar: 0.5 cm.

Supplementary Figure 4: Ventral petals, homologous ROIs, and quantified nectar guide patterns in the PC1 and PC2 of eight F₁ hybrids. Scale bar: 0.5 cm.

Supplementary Figure 5: Ventral petals, homologous ROIs, and quantified nectar guide patterns in the PC1 and PC2 of eight Gesneriaceae species. Scale bar: 0.5 cm.

Supplementary Figure 6: Phylogenetic signals of 4 PC scores. The boxplot presents the distributions of the Blomberg K values obtained from the phylogenetic trees of 1,000 replicates in the maximum likelihood analysis. Diamonds indicate the Blomberg K values calculated using the 50% majority-rule consensus tree. The gray dots in the denote the data point of outliers. The *P*-values are provided at the right of each boxplot.

2 Supplementary Tables

Supplementary Table 1: Qualitative nectar guide pattern of 60 Ligeriinae species reviewed from the literature and image galleries on the Internet.

Taxa ^a	Pollination type (Perret et al, 2003)	Variegated pattern (<u>R</u> andom v.s. <u>V</u> ascular-dependent)	Gradient pattern (<u>D</u> istal v.s. <u>P</u> roximal)	Sources of photos and figures
<i>Paliavana gracilis</i>	Bee	V	D	Peixoto and Pereira (2020)
<i>Paliavana plumerioides</i>	Bee	weak R	--	Peixoto and Pereira (2020)
<i>Paliavana prasinata</i>	Bat	--	--	Grice (2020); LaVergne (2020); Peixoto and Pereira (2020); Sanmartin-Gajardo and Sazima (2005)
<i>Paliavana sericiflora</i>	Bat/Hummingbird ^b	R (some varieties V) ^f	--	Peixoto and Pereira (2020); Sanmartin-Gajardo and Sazima (2005)
<i>Paliavana tenuiflora</i>	Bee	R	P	Ferreira et al. (2010); Grice (2020); Peixoto and Pereira (2020); Sales (2015)
<i>Paliavana werdermannii</i>	Bat	weak V	--	Peixoto and Pereira (2020)
<i>Sinningia aghensis</i>	Bee	R	P	Grice (2020); Peixoto and Pereira (2020); Fig. S3 of the present study
<i>Sinningia allagophylla</i>	Hummingbird	--	D	Ferreira et al. (2015); Peixoto and Pereira (2020); Fig. S3 of the present study Ferreira et al. (2015)
<i>Sinningia amambayensis</i>	Hummingbird	V	D	LaVergne (2020)
<i>Sinningia araneosa</i>	Hummingbird	weak V	D	Grice (2020); LaVergne (2020)
<i>Sinningia bragae</i>	Bee ^c	weak R	P	Chautems et al. (2015); LaVergne (2020)
<i>Sinningia bulbosa</i>	<u>to be determined</u>	<u>to be determined</u>	<u>to be determined</u>	
<i>Sinningia calcaria</i>	Hummingbird	weak V	D	Grice (2020); LaVergne (2020)
<i>Sinningia canastrensis</i>	Bee	V	D	Chautems et al. (2010); Peixoto and Pereira (2020); Sanmartin-Gajardo and Sazima (2005)
<i>Sinningia canescens</i>	Hummingbird	V	D	Grice (2020); Peixoto and Pereira (2020)
<i>Sinningia carangolensis</i>	Hummingbird	--	D	Peixoto and Pereira (2020); Fig. S3 of the present study
<i>Sinningia cardinalis</i>	Hummingbird	V	D	LaVergne (2020); Peixoto and Pereira (2020); Winefield et al. (2005)
<i>Sinningia cochlearis</i>	Hummingbird	--	D	LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia cooperi</i>	Hummingbird	R	D	Blaser et al. (2012)
<i>Sinningia curtiflora</i>	Hummingbird	--	D	Ferreira et al. (2015); Peixoto and Pereira (2020)
<i>Sinningia douglasii</i>	Hummingbird	V	D	Ferreira et al. (2015); Peixoto and Pereira (2020)
<i>Sinningia elatior</i>	Hummingbird	--	D	Araújo and Rocha-Filho (2019); Ferreira et al. (2015); Peixoto and Pereira (2020)
<i>Sinningia flammea</i>	Hummingbird ^d	--	D	Chautems et al. (2019); LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia gerdiana</i>	Bee	V	--	Chautems et al. (2010); Dutra (2018); LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia gigantifolia</i>	Hummingbird	--	D	Arzolla et al. (2007); Peixoto and Pereira (2020)
<i>Sinningia glazioviana</i>	Hummingbird	V	D	LaVergne (2020)
<i>Sinningia globulosa</i>	Hummingbird	V	D	Chautems et al. (2010); LaVergne (2020)
<i>Sinningia hatschbachii</i>	Hummingbird	weak V	D	Grice (2020); LaVergne (2020) ; Peixoto and Pereira (2020)

<i>Sinningia helleri</i>	Bee	V	P	Dutra (2018); LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia hoehnei</i>	Bee ^d	V	P	Chautems et al. (2019); LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia iarae</i>	Hummingbird	weak V	D	LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia lateritia</i>	Hummingbird	<u>to be determined</u>	<u>to be determined</u>	
<i>Sinningia lindleyi</i>	Bee	V	P	Grice (2020); LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia lutea</i>	Hummingbird ^e	--	--	Buzatto and Singer (2012)
<i>Sinningia micans</i>	<u>to be determined</u>	<u>to be determined</u>	<u>to be determined</u>	
<i>Sinningia musicola</i>	Bee	--	D	Chautems et al. (2010); Grice (2020)
<i>Sinningia nivalis</i>	Hummingbird	V	D	Ferreira et al. (2015); Grice (2020)
<i>Sinningia polyantha</i>	Hummingbird	V	D	Dutra (2018); LaVergne (2020); Peixoto and Pereira (2020); Fig. S3 of the present study
<i>Sinningia punctata</i>	<u>to be determined</u>	<u>to be determined</u>	<u>to be determined</u>	
<i>Sinningia pusilla</i>	Bee	weak V	D	Dutra (2018); Grice (2020); Peixoto and Pereira (2020); Fig. S3 of the present study
<i>Sinningia ramboi</i>	Hummingbird	V	D	Ferreira et al. (2015); Grice (2020); LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia rupicola</i>	Hummingbird	V	D	Grice (2020); Peixoto and Pereira (2020)
<i>Sinningia schiffneri</i>	Bee	R	--	Grice (2020); LaVergne (2020); Peixoto and Pereira (2020); Sanmartin-Gajardo and Sazima (2005)
<i>Sinningia schomburgkiana</i>	<u>to be determined</u>	<u>to be determined</u>	<u>to be determined</u>	
<i>Sinningia stapelioides</i>	Hummingbird ^d	V	weak D	Chautems et al. (2019); Grice (2020); LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia striata</i>	Hummingbird	V	D	LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia sulcata</i>	Hummingbird	--	--	LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia tuberosa</i>	Hummingbird	V	D	Blaser et al. (2012); Grice (2020)
<i>Sinningia valsuganensis</i>	Hummingbird	V	D	LaVergne (2020); Peixoto and Pereira (2020)
<i>Sinningia velutina</i>	Bee	V	--	Peixoto and Pereira (2020)
<i>Sinningia villosa</i>	Bee	V	P	Grice (2020); Sanmartin-Gajardo and Sazima (2005); Peixoto and Pereira (2020)
<i>Vanhouttea bradeana</i>	<u>to be determined</u>	<u>to be determined</u>	<u>to be determined</u>	
<i>Vanhouttea brueggeri</i>	Hummingbird	V	D	Blaser et al. (2012); Chautems (2002); LaVergne (2020); Peixoto and Pereira (2020)
<i>Vanhouttea calcarata</i>	Hummingbird	V	D	LaVergne (2020); Peixoto and Pereira (2020)
<i>Vanhouttea fruticulosa</i>	Hummingbird	--	D	Peixoto and Pereira (2020)
<i>Vanhouttea gardneri</i>	<u>to be determined</u>	<u>to be determined</u>	<u>to be determined</u>	
<i>Vanhouttea lanata</i>	Hummingbird	V	D	Grice (2020); LaVergne (2020); Peixoto and Pereira (2020)
<i>Vanhouttea leonii</i>	Hummingbird	V	D	LaVergne (2020)
<i>Vanhouttea mollis</i>	<u>to be determined</u>	<u>to be determined</u>	<u>to be determined</u>	
<i>Vanhouttea pendula</i>	Hummingbird	V	D	LaVergne (2020)

^a The list of taxa was delivered from the International Plant Names Index and the Plants of the World Online.

^b The hummingbird pollination was confirmed by Sanmartin-Gajardo and Sazima (2005).

^c The pollination type was referenced from Chautems et al. (2015). The pollination type of *S. bragae* was inferred from the corolla morphology of *S. aghensis*.

^d The pollination types were referenced from Chautems et al. (2019). The pollination type of *S. flammea* was inferred from the corolla morphology of *S. helioana*; *S. hoehnei* from *S. barbata*.

^e The pollination type was referenced from Buzatto and Singer (2012). The pollination type of *S. lutea* was inferred from the corolla morphology of *S. allagophylla*.

^f In the chi-square test of independence, the species was duplicated. One is the random mode and the other one is the vascular mode.

Supplementary Table 2: χ^2 test of independence between the patterning modes of the variegated pattern and pollination type in 83 Ligeriinae species.

Pollination type	Variegated pattern			Chi-square value	<i>p</i> -value
	R andom mode	V ascular mode	N one		
Bat	2	2	1	22.62	9.33×10 ⁻⁴
Bee	8	14	2		
Hummingbird	1	38	15		
Moth	0	0	1		

Supplementary Table 3: χ^2 test of independence between the patterning modes of the gradient pattern and pollination type in 83 Ligeriinae species.

Pollination type	Gradient pattern			Chi-square value	<i>p</i> -value
	Distal mode	Proximal mode	None		
Bat	0	0	4	63.95	7.07×10^{-12}
Bee	6	11	7		
Hummingbird	50	0	4		
Moth	0	0	1
