Values are presented as percentages with their 95% CI or means (Length of stay) with their standard deviation

†p<0.001 by level of triage; M: Top 6 of the medical diagnosis, S: Top 5 of the surgical diagnosis;

‡p<0.001 by periods: 2016-2017 versus 2018-2019

<sup>a</sup> Medical and surgical units

<sup>b</sup> 122 children were transferred to 2 pediatric units (hematology, neonatology) that are located at the Archet university hospital of Nice (2 miles away from the Lenval Children's hospital)

<sup>c</sup> Fever of unknown origin

<sup>d</sup> Appendicitis, occlusive pathologies, hernial pathologies, ovarian pathologies

<sup>e</sup> Length of stay defined as the duration between the time of the admission and the time of the exit of the PED (in minutes)

Table A2. Characteristics of complaints by level of triage

Type of complaint†‡		n	Level 1 (n=217)	Level 2 (n=16003)	Level 3 (n=34623)	Level 4 (n=41335)	Level 5 (n=8076)
