RESEARCH ETHICS COMMITTEE (EHSREC)

Ethical Consent Form

I declare that I am willing to take part in research for the project entitled

“Using a trust lens to inform a social network theory of participatory health research: defining, influencing and measuring the social-relational dimensions of research partnerships”

I declare that I have been fully briefed on the nature of this study and my role in it and have been given the opportunity to ask questions before agreeing to participate.

The nature of my participation has been explained to me, and I have full knowledge of how the information collected will be used. I am aware that my participation in the interview or focus group will be audio/video recorded and I agree to this. However, should I feel uncomfortable at any time, I can request that the recording software be switched off. I am aware that such information may also be used in future academic presentations and publications about this study.

I fully understand that there is no obligation on me to participate in this study. I fully understand that I am free to withdraw my participation without having to explain or give a reason, up to a period of two weeks after the data collection is completed. I understand that all other members of the PPI Ignite Network are being invited to participate and that we will be providing opinions on levels of collaboration and trust between partners.

Although no one will directly see how I have ranked them, everyone within the study will be able to see the overall network maps and how your organisation was ranked by your peers within it. We realise this may cause discomfort.

I know that I have been asked not to discuss the content of the focus group discussion, or the identity of its participants with anyone. I acknowledge that while the researcher has asked all focus groups participants to maintain confidentiality in the above manner, the researcher cannot guarantee that individual participants will adhere to this request. I

acknowledge that the researcher does guarantee that they will not use my name or any other information, that would identify me in any outputs of the research. I declare that I have read and fully understand the contents of the Research Privacy Notice. Consent to Contact about Similar Future Research: I explicitly consent to the University contacting me as part of current or similar future research and holding my contact details on its database for the purpose of contacting me:

☐ **Yes** (1)

☐ **No** (2)

Consent By clicking 'Yes' below, I am providing my consent to participate as indicated above OR click 'No' below, if you choose not to participate at this time.

Start of Block: Network Questions Part 1

JS

Question 1

Thank you for taking part in this study!

You have read the study information letter and have signed an informed consent form, so you understand the purpose of the study and the use to which its findings will be put.

Individuals and institutions will be anonymised in all wider reporting of results.

This questionnaire should take approximately 15 minutes to complete.

Section 1: Network Questions

Level of Collaboration

For the following questions we are asking you to name organisations you are collaborating with on the PPI Ignite Network. When choosing an organisation, think about the specific individuals that represent the organisation in the network. *For example, if you were collaborating with Jon Salsberg or Una McInerney choose 'University of Limerick'.*

Once you start typing an organisation's **full** name, an auto fill drop-down box will appear. Select the organisation you want. If needed, click [here](#) for a full list of network organisations.

Question 1:

a. Enter up to 7 organisations that you collaborate with on the PPI Ignite Network.

b. Beside each of the selected organisations, rank your intensity of collaboration.

(Please refer to Table A to guide your ranking)

Table A

Level interaction	Definition		(0) No			
	No interaction, not aware of individual in this organisation					
	(1) Networking		I am aware of the individual(s), but we have loosely defined roles, little communication, and all decisions made independently			
	(2) Cooperation		We provide information to each other, have somewhat defined roles, formal communication, but all decisions are made independently			
	(3) Coordination		We share information and resources, have defined roles, frequent communication, some shared decision making			
	(4) Coalition		We share ideas and resources, have frequent and prioritised communication, and have a vote in each other’s decision making			
	(5) Collaboration		We belong to one system, our frequent communication is characterized by mutual trust, consensus is reached on all decisions
