eTable 5. Facts behind face mask: cost and effectiveness

|                                | Issues                                                                                                                                                                                                                                                                                                                 | How to resolve                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Health<br>Economic<br>and Cost | Not everyone will be able to afford purchasing one-time-use disposable masks.<br>Worsened by global shortage of commercial supplies because production is based on society demands during non-pandemic.<br>Possible waste of natural resources and environments if universal masking in any situation in all states?   | Homemade masks and face covering alternatives may not be as effective as commercially available masks. Schools and companies should provide free disposable masks in indoor entrances during ILI season if they can provide free toilet papers and hand towels. Financial supports from Tax deduction & governments.<br>Stockpiles at home and FEMA.<br>Reusable standardized cloth masks with daily washing because of the cost and availability. |
| Compliance<br>/ Adherence      | Feasibility and Adaptations. Very difficult for healthy people including children younger than 2 years old for a long-time use. Not everyone can wear because of health issues <sup>#</sup>                                                                                                                            | Culture difference: traditionally, Western societies consider only those infected should wear masks because of potential spreading the virus. In Asia, wearing a mask is not just mainly for protecting people from getting infected, but also minimizing the possibility of potential infection in you from spreading to other people. Education people that masks protect you and community.                                                     |
| Effectiveness                  | Works well if you know how to proper use face masks that meet the standards or approved by the FDA and NIOSH (e.g. even N95 need fit test for professional)                                                                                                                                                            | Education on the proper use, disposal of used face masks, daily washing for cloth mask, and hand hygiene (example: washing hands before touching mask; washing hands before and after disposing of mask, etc.).                                                                                                                                                                                                                                    |
| Adverse effects                | <b>Ignoring social distancing and hand hygiene.</b><br>Symptoms: Skin breakdown, acne, impaired cognition, anxiety, headaches, trigger skin sensitivity, eczema, acne, shortness of breath, and <b>mask mouth</b> (bad breath, dental problems, Yeast and bacterial infections).<br>Society security and safety issues | Most symptomatic side effects go away once mask is removed, otherwise seek professional care.                                                                                                                                                                                                                                                                                                                                                      |
