

立即回忆

Immediate memory:

指导语:

Instructions:

下面我给您念一些物体的词，我念完以后，请您把记住的词语告诉我，可以不按顺序说，记得什么就说什么。然后我会再给您念几遍，请您把每次记住的词都告诉我，包括前一次已经说过的词，看您最后能记住多少，好吗？

Now I will read you some words about objects. When I finish reading, please tell me the words you remember. You can say them out of order, just say what you remember. Then I will read it to you several times., please tell me the words you remember each time, including the words you said the last time, and record how many words you can remember in the end, okay?

检查者以每个词 1 秒的速度清楚的读出，用 1, 2, 3 等阿拉伯数字进行记录，同时记录插入数和重复数。同 1 物品两次以上插入算为 1 个插入，每次重复均算为 1 次重复，但对插入物品的重复不计入重复。每次两分钟回忆时间。

The examiner read each word clearly at a rate of 1 second, using 1, 2, and 3 Arabic numerals, as well as the number of insertions and repeats. More than two insertions of the same object are counted as one insertion, and each repetition is counted as one repetition, but the repetition of the inserted object is not counted as a repetition. Two minutes for recall at a time.

如果近 3 个月受试者曾做过这个检查，记录检查日期。

If the subject has had this test in the last 3 months, please record the date.
