A Corrigendum on

Design, Synthesis, and Biological Evaluation of (E)-N'-((1-Chloro-3,4-Dihydronaphthalen-2-yl)Methylene)Benzohydrazide Derivatives as Anti-prostate Cancer Agents

by Arjun, H. A., Elancheran, R., Manikandan, N., Lakshmithendral, K., Ramanathan, M., Bhattacharjee, A., et al. (2019). *Front. Chem.* 7:474. doi: 10.3389/fchem.2019.00474

In the original article, there was a mistake in the **Figure 4** as published. Figure 4 was not appropriated for the tested compound 6g. The corrected **Figure 4** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

Abbreviations: LC - Live cells, CB - Cell membrane blebbing, AC- Apoptotic cells, CC- Chromatin condensation

FIGURE 4 | The morphological changes in **6g** and Zebularine treated in prostate cancer cell line. The treated and untreated cells were stained with Acridine orange and Ethidium bromide and observed under an inverted fluorescent microscope. Live cells appear green, late apoptotic cells are appearing orange in color, and necrotic cells are colored red.
