A Corrigendum on

The Influence of Menstrual Cycle and Androstadienone on Female Stress Reactions: An fMRI Study

by Chung, K. C., Peisen, F., Kogler, L., Radke, S., Turetsky, B., Freiherr, J., et al. (2016). *Front. Hum. Neurosci.* 10:44. doi: 10.3389/fnhum.2016.00044

Corrigendum on: Author Contributions

In the original article, the use of “prepared the manuscript” and “supervised data collection as well as preparation of the manuscript” in the Author Contributions Statement was unintentionally vague and potentially confusing. The authors apologize for the lack of clarity. This change does not influence the scientific conclusions of the article in any way. The full corrected Author Contributions Statement appears below.

KC collected the data, performed data analyses, and wrote the manuscript. FP helped with data collection and processed the skin conductance data. LK, SR, and BT helped with data interpretation and reviewed the manuscript. JF and BD designed the study and supervised data collection as well as reviewed the manuscript.

FUNDING

The work in this manuscript was supported by the Medical Faculty, RWTH Aachen, Aachen, Germany (START 691302) and the Deutsche Forschungsgemeinschaft (DFG, IRTG 1328). BD was further supported by the Austrian Science Fund (FWF P23533).

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
