Decreased Pain Perception by Unconscious Emotional Pictures

by Peláez, I., Martínez-Iñigo, D., Barjola, P., Cardoso, S., and Mercado, F. (2016). *Front. Psychol.* 7:1636. doi: 10.3389/fpsyg.2016.01636

There is an error in the Funding statement. The correct name of the Funder is Institute of Health Carlos III of Spain (ISCIII-Co-financed from the European Regional Development Fund: ERDF). The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way.

The original article has been updated.

FUNDING

This study was supported by grants PI13/01759 from Institute of Health Carlos III of Spain (ISCIII-Co-financed from the European Regional Development Fund: ERDF) of Spain and S2015/HUM-3327 EMO-CM from the Comunidad de Madrid.

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
