Table 4 with mode of happiness training indicated in colors. Numbers denote % change on scale range and link to a finding page in [World Database of Happiness](#). Use control+click to view the page. a: Not included in calculation of mean/median because study appears twice in a column. b: Not included in calculation of mean/median because of huge decline in happiness in control group (treated as outliers). c: Average value of multiple measures/multiple comparison groups used in calculation of mean/median. d: Numbers of participants and controls added up. *For detailed information on mean/median/range of sample size) (see Supplementary Material).
