Retraction: Histone methyltransferase SETD1A induces epithelial-mesenchymal transition to promote invasion and metastasis through epigenetic reprogramming of snail in gastric cancer

Frontiers Editorial Office*

A Retraction of the Original Research Article

[Histone methyltransferase SETD1A induces epithelial-mesenchymal transition to promote invasion and metastasis through epigenetic reprogramming of snail in gastric cancer](#)

by Wu J, Chai H, Shan H, Pan C, Xu X, Dong W, Yu J and Gu Y (2021). *Front. Cell Dev. Biol.* 9:657888. doi: [10.3389/fcell.2021.657888](#)

The journal retracts the 07 June 2021 article cited above.

Following publication, concerns were raised regarding the integrity of the images in the published figures. The authors failed to provide a satisfactory explanation during the investigation, which was conducted in accordance with Frontiers' policies.

This retraction was approved by the Chief Executive Editor of Frontiers. The authors received a communication regarding the retraction and had a chance to respond. This communication has been recorded by the publisher.

Frontiers would like to thank the users on PubPeer for bringing the published article to our attention.
