A Corrigendum on

Framework, value chain, distribution modeling

Planning for Adaptation: A System Approach to Understand the Value Chain's Role in Supporting Smallholder Coffee Farmers' Adaptive Capacity in Peru

Keywords: sensitivity, vulnerability, climate change, Coffea arabica, adaptation trajectory, Sustainable Livelihoods

by Morales, L. V., Robiglio, V., Baca, M., Bunn, C., and Reyes, M. (2022). Front. Clim. 4:788369. doi: 10.3389/fclim.2022.788369

In the original article, there were two errors in the **Funding** section. The correct name for one of the funding organizations is "Camara Peruana del Café y Cacao." A correction has been made to the Funding section.

In the original article, we neglected to include the funding received under CGIAR's Research Program on Forests, Trees and Agroforestry (FTA) and Research Program on Climate Change, Agriculture and Food Security (CCAFS) by Valentina Robiglio, Maria Baca, Martin Reyes and Cristian Bunn. A correction has been made to the Funding section.

The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
