A Corrigendum on

Impact of Pore-Scale Wettability on Rhizosphere Rewetting

by Benard, P., Zarebanadkouki, M., and Carminati, A. (2018). *Front. Environ. Sci.* 6:16.

In the original article, there was an error in **Equation (3)**. **The numerator and denominator for the final part were switched.** A correction has been made to the Materials and Methods section, subsection **Model Description, Equation (3)**:

$$t = \frac{\eta}{\pi r^4} \frac{8}{2} \frac{r}{\gamma \cos(\alpha)} \frac{L_{tot}}{1} V \quad (3)$$

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
