## KEYWORDS

complement deposition, COVID-19, kidney, lung, autopsy, lectin pathway

## A Corrigendum on

**Complement activation via the lectin and alternative pathway in patients with severe COVID-19**

by Niederreiter J, Eck C, Ries T, Hartmann A, Märkl B, Büttner-Herold M, Amann K and Daniel C (2022) *Front. Immunol.* 13:835156. doi: 10.3389/fimmu.2022.835156

In the published article, information in the **Acknowledgments** was mistakenly not included in the publication. A correction has been made to **Acknowledgments**:

## Acknowledgments

The present work was performed in (partial) fulfillment of the requirements for obtaining the degree 'Dr. med.' from the Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU) for JN. The technical assistance of Stefan Söllner, Sina Dassler, Carolin Hamann, Iris Scheitacker and Miriam Reutelshöfer is gratefully acknowledged. The authors are thankful to Lukas Borcharding for compiling the cases from the Augsburg Autopsy Series.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
