A corrigendum on

C-reactive protein isoforms as prognostic markers of COVID-19 severity

by Molins B, Figueras-Roca M, Valero O, Llorenç V, Romero-Vázquez S, Sibila O, Adán A, García-Vidal C and Soriano A (2023). *Front. Immunol.* 13:1105343. doi: 10.3389/fimmu.2022.1105343

In the published article, there was an error in the Funding statement. The first sentence was incorrectly written as “This work was funded by the Ministry of Science and Innovation of Spain, “Instituto de Salud Carlos III”, “Fondo de Investigación Sanitaria” (grant number PI19/00265), and Funds FEDER “Una manera de hacer Europa”. It should appear as “This study has been funded by Instituto de Salud Carlos III (ISCIII) through the project PI19/00265 and co-funded by the European Union”. The correct Funding statement appears below.

Funding

This study has been funded by Instituto de Salud Carlos III (ISCIII) through the project PI19/00265 and co-funded by the European Union. We are indebted to the Fundació Glòria Soler for its contribution and support to the COVIDBANK of HCB-IDIBAPS. This work was financed by *ad hoc* patronage funds for research on COVID-19 from donations from citizens and organizations to the Hospital Clínic de Barcelona-Fundació Clínic per a la Recerca Biomèdica.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
