***CXCL8* gene, inflammatory bowel disease (IBD), inflammation, interleukin 8, genetic  
variants, Crohn's disease, colitis ulcerosa**

## A Corrigendum on

### Is a rare *CXCL8* gene variant a new possible cause or course factor of inflammatory bowel disease?

by Gabryel M, Zakerska-Banaszak O, Ladziak K, Hubert KA, Batur A, Suszynska-Zajczyk J,  
Hryhorowicz M, Dobrowolska A and Skrzypczak-Zielinska M (2025) *Front. Immunol.*  
16:1562618. doi: 10.3389/fimmu.2025.1562618

In the published article, there was an error in the article title. Instead of “Is a rare *CXCL8* gene variant a new possible cause or course factor of inflammatory bowel disease?”, it should be “Is a rare *CXCL8* gene variant a new possible cause or course factor of inflammatory bowel disease?”.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
