KEYWORDS

Yellow and Bohai Sea, red tide, coupled physical-biological model, dinoflagellate, harmful algal bloom

A Corrigendum on

[Causes analysis of red tide event in the offshore sea of Rongcheng, Shandong Province, China based on a coupled physical-biological model](#)

By Jiang W, Liu C, Yang D, Xu L and Yin B (2024). *Front. Mar. Sci.* 11:1417667.
doi: 10.3389/fmars.2024.1417667

In the published article, there was an error in the **Funding** statement, page 13. The **Funding** statement for the Laoshan Laboratory Science and Technology Innovation Project was incorrectly displayed as (No. LSKJ202202504). The correct **Funding** statement appears below.

“The author(s) declare financial support was received for the research, authorship, and/or publication of this article. This study was supported by Laoshan Laboratory Science and Technology Innovation Project (No.LSKJ202203700) and the Key Research Infrastructures in the Field Stations of Chinese Academy of Sciences (KFJ-SW-YW047) and Laoshan Laboratory Science and Technology Innovation Project (No. LSKJ2022020103 and LSKJ202202902). It was also supported by Yellow Sea ocean & East China Sea ocean observation and research station of OMORN.”

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
