## A corrigendum on

### The functional trajectory in frail compared with non-frail critically ill patients during the hospital stay

by Fuest, K. E., Lorenz, M., Grunow, J. J., Weiss, B., Mörgeli, R., Finkenzeller, S., Bogdanski, R., Heim, M., Kapfer, B., Kriescher, S., Lingg, C., Martin, J., Ulm, B., Jungwirth, B., Blobner, M., and Schaller, S. J. (2021). *Front. Med.* 8:748812. doi: 10.3389/fmed.2021.748812

In the published article, there was an error in the STROBE diagram as published. In the respective STROBE Diagram, we describe a total of 2089 patients with an expected intensive care stay of >24 h in the period from 1st April 2017 to 30th May 2019. However, the number and differentiation of the excluded patients is not correct.

The corrected Strobe Diagram and its caption appear below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
