## A Corrigendum on

### Injecting Immunosuppressive M2 Macrophages Alleviates the Symptoms of Periodontitis in Mice

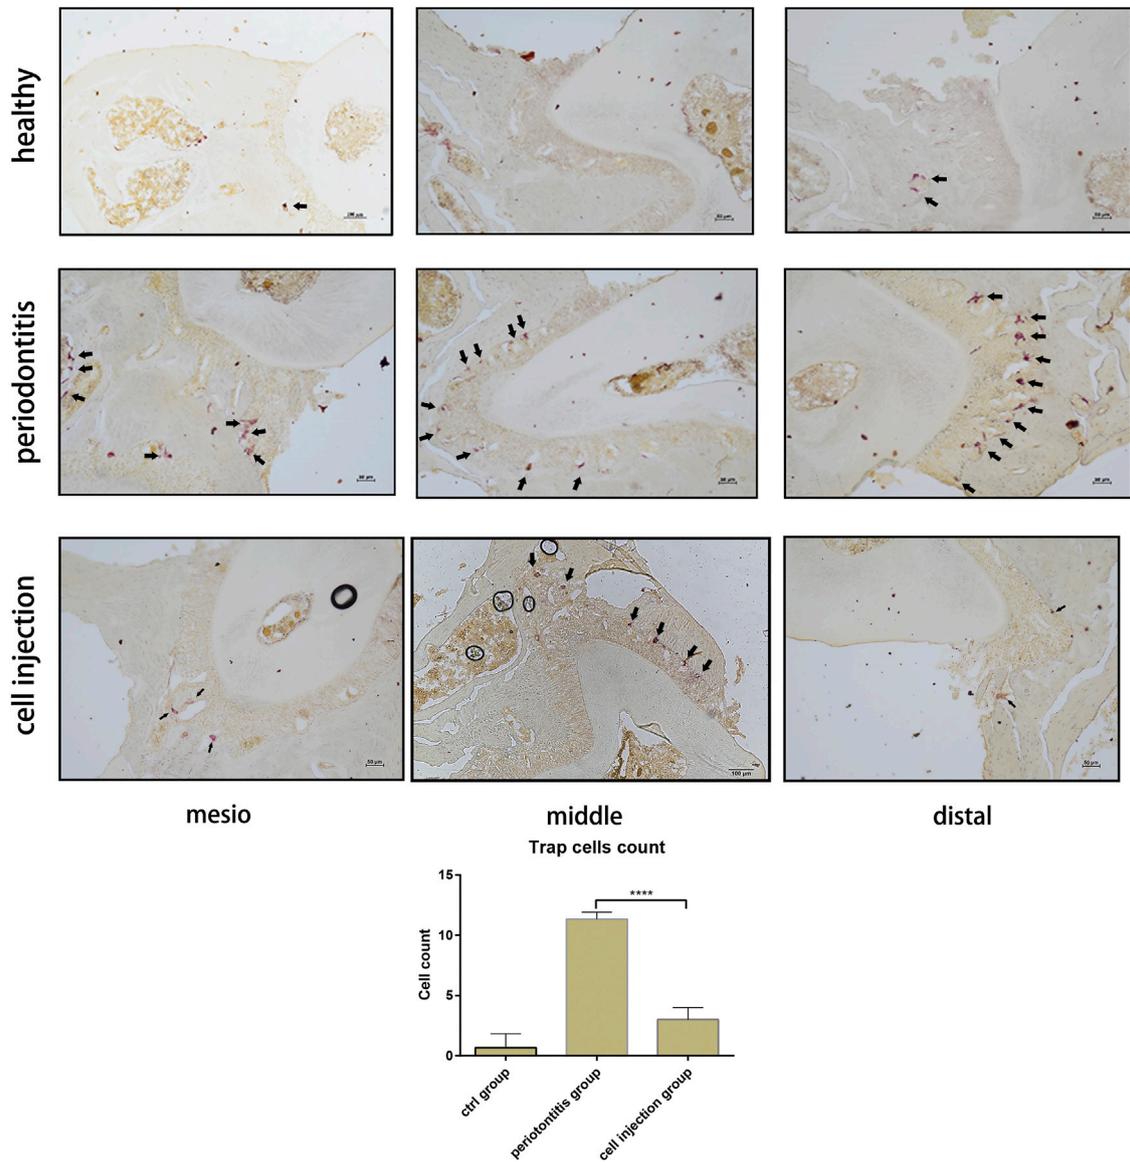

by Miao, Y., He, L., Qi, X., and Lin, X. (2020). *Front. Mol. Biosci.* 7:603817. doi:10.3389/fmolb.2020.603817.

In the original article, there was a mistake in “**Figure 4**” as published. “The middle picture in the ‘cell injection group’ is misplaced.” The corrected “**Figure 4**” appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.

**FIGURE 4 |** Tartrate-resistant acid phosphatase (TRAP) staining of osteoclast in the periodontal ligament of the distal, middle, and mesial sites of the second molar. The cell counts of TRAP-positive cells are shown as means  $\pm$  SD; the statistical significance was determined by P-value (\*\*\* $P < 0.001$ ).
