A corrigendum on

Data Citation in Neuroimaging: Proposed Best Practices for Data Identification and Attribution

by Honor, L. B., Haselgrove, C., Frazier, J. A., and Kennedy, D. N. (2016). *Front. Neuroinform.* 10:34. doi: 10.3389/fninf.2016.00034

In our original article, we stated, “Annual DOI creation costs range from \$500 (for non-degree granting departments) to \$25,000 (for entire degree-granting institutions) per 1 million DOIs minted.” This is incorrect. The University of California EZID service offers annual DOI creation at \$835 (for non-degree granting departments) to \$2500 (for entire degree-granting institutions) per 1 million DOIs minted¹. The authors apologize for the mistake. This error does not change the conclusions of the article in any way.
