Retraction: miR-16 and fluoxetine both reverse autophagic and apoptotic change in chronic unpredictable mild stress model rats

Frontiers Editorial Office*

A Retraction of the Original Research Article

miR-16 and Fluoxetine Both Reverse Autophagic and Apoptotic Change in Chronic Unpredictable Mild Stress Model Rats

by Yang, Y., Hu, Z., Du, X., Davies, H., Huo, X., and Fang, M. (2017). *Front. Neurosci.* 11:428.
doi: 10.3389/fnins.2017.00428

The publisher retracts the article cited above.

Following publication, concerns were raised regarding the integrity of the images in the published figures. The authors failed to provide a satisfactory explanation during the investigation, which was conducted in accordance with Frontiers' policies.

This retraction was approved by the Chief Executive Editor of Frontiers. The authors received a communication regarding the retraction and had a chance to respond. This communication has been recorded by the publisher.

Frontiers would like to thank the users on PubPeer for bringing the published article to our attention.
