Correction on

Emotional stress during the COVID-19 lockdown: how negative X/Twitter posts correlated with changes in the brain's fear network

By Guedj E, Campion JY, Horowitz T, Barthélémy F, Khalfa S, El-Hage W (2025). Front Nucl Med. 5:1575026. doi: 10.3389/fnume.2025.1575026

Figure/table caption

There was a mistake in the caption and the x-axis label of Figure 1 as published. The caption was displayed as “Distribution of composite negative-emotion scores by day of lockdown”. The corrected caption of Figure 1 appears below. “Distribution of composite negative-emotion scores across patients” The x-axis label was displayed as “#day of lockdown”. The corrected x-axis label of Figure 1 appears below. “#patient”
