## KEYWORDS

HCC, OIT3, ferroptosis, arachidonic acid, biomarker

## A Corrigendum on:

OIT3 serves as a novel biomarker of hepatocellular carcinoma by mediating ferroptosis via regulating the arachidonic acid metabolism

by Wen J, Aili A, Yan YX, Lai Y, Niu S, He S, Zhang X, Zhang G, Li J. (2022) *Front. Oncol.* 12:977348.  
doi: 10.3389/fonc.2022.977348

In the published article, there was an error in the author list, and authors Abudureyimujinag Aili, Yao Xue Yan were erroneously excluded from co-first authorship. Jie Wen, Abudureyimujiang Aili, Yao Xue Yan should be co-first authors. The corrected author list appears below.

Jie Wen<sup>1\*†</sup>, Abudureyimujiang Aili<sup>2†</sup>, Yao Xue Yan<sup>3†</sup>, YuLin Lai<sup>4</sup>, Shaoqing Niu<sup>4</sup>, Shasha He<sup>4</sup>, Xiaokai Zhang<sup>5</sup>, Guixiong Zhang<sup>5</sup> and Jiaping Li<sup>5\*</sup>

<sup>†</sup>These authors have contributed equally to this work and share first authorship.

In the published article, there was an error in the Funding statement. There was a grammatical error and two funders were missed. The correct Funding statement appears below.

This work was Funded by China Postdoctoral Science Foundation to Jie Wen (2020M683115), the National Natural Science Foundation of China (No. 81971719 to Jiaping Li, 81903037 to Shasha He, 81902909 to Abudureyimujiang Aili and 82102818 to Wenjie), the Guangdong Medical Research Foundation (No. A2022121 to Shaoqing Niu), the Major Science and Technology Program of Guangdong Province (No. 2020B0101130016 to Jiaping Li) and the Guangzhou Key research and development Projects (No. 202103000021 to Jiaping Li).

In the published article, there was an error in the description of Malondialdehyde (MDA) measurement. A correction has been made to **Methods**, *Malondialdehyde (MDA) measurement*, line 239-245 in Paragraph 4 of Page 6. This sentence previously stated:

“The calculation method was as follows:  
 $\Delta\text{OD}$  was as follows calculation m  
 $\Delta\text{OD}$  was as follows calculation m  
 $\Delta\text{OD}$  waA600 (sample)-A600 (blank)

$\text{MDA} (\text{nmol/mgprot}) = 5 \times 12.9 \times (\Delta\text{A}532 - \Delta\text{A}600) / 2.58 \times \Delta\text{A}450 = 5 \times 12.9 \times (\Delta\text{A}532 - \Delta\text{A}600) / 2.58 \times \Delta\text{A}450 \times \text{Spr}$  (sample protein concentration, mg/mL).”

The corrected sentence appears below:

“ $\Delta\text{A}450 = \text{A}450$  (sample)-A450 (blank)  
 $\Delta\text{A}532 = \text{A}532$  (sample)-A532 (blank)  
 $\Delta\text{A}600 = \text{A}600$  (sample)-A600 (blank)  
 $\text{MDA} (\text{nmol/mgprot}) = 5 \times (12.9 \times (\Delta\text{A}532 - \Delta\text{A}600) - 2.58 \times \Delta\text{A}450) / \text{Spr}$  (sample protein concentration, mg/mL).”

The authors apologize for these errors and state that they do not change the scientific conclusions of the article in any way. The original article has been updated.
