In the original article, there was an error in Table 2 as published. The percentages for Table 2 “Due for Pap. Test (never or 3+ years ago)” for Los Angeles and Sacramento were incorrect. The count and percentage for San Francisco were incorrect. The corrected Table 2 and its caption appear below.

TABLE 2 Screening behavior and interest in breast cancer genetics among 'Tu Historia Cuenta' study participants (N=1,042) overall and by recruitment area.

Furthermore, there was also an error in Table 4 as published. The measurement of association should be RRR. An asterisk has also been added to the bottom of the table. The corrected Table 4 and its caption appear below.
