## KEYWORDS

autophagy, chloroquine, apoptosis, uttroside B, hepatocellular carcinoma, chemoprevention

## A corrigendum on

Blockade of uttroside B-induced autophagic pro-survival signals augments its chemotherapeutic efficacy against hepatocellular carcinoma

by Nath LR, Swetha M, Vijayakurup V, Thangarasu AK, Haritha HN, Shabna A, Aiswarya SU, Rayginia TP, Keerthana CK, Kalimuthu K, Sundaram S, Lankalapalli RS, Pillai S, Towner R, Isakov N and Anto RJ (2022). *Front. Oncol.* 12:812598. doi: 10.3389/fonc.2022.812598

## Incorrect Supplementary Material

In the published article, there was an error in *Supplementary Figure 1B*. A Duplicate image was given in Wound healing assay images of 0h Cqn (10µM) and Utt-B (250nM). The correct material statement appears below. There is no change in the wordings of the manuscript.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
