A Corrigendum on

Population Pharmacokinetic/Pharmacodynamic Model-Guided Dosing Optimization of a Novel Sedative HR7056 in Chinese Healthy Subjects

by Zhou, Y., Hu, P., Huang, Y., Sang, N., Song, K., Wang, H., et al. (2018). *Front. Pharmacol.* 9:1316. doi: 10.3389/fphar.2018.01316

In the original article, we neglected to include the funder “Chinese National Natural Fund grant” (No. 81671369), to XC.

An author name was also mistakenly incorrectly spelled as “Bei Hu.” The correct spelling is “Pei Hu.”

Additionally, there was an error regarding the affiliation for Ying Zhou. As well as having affiliation “Department of Pharmacy, The First Affiliated Hospital of Nanchang University, Nanchang, China,” she should also have “Clinical Pharmacology Research Center, Peking Union Medical College Hospital, Peking Union Medical College and Chinese Academy of Medical Sciences, Beijing, China.”

Lastly, Xia Chen, Yuguang Huang, Nuoer Sang, and Kaicheng Song were not included as authors in the published article. They have all contributed significantly to this manuscript by organizing the clinical trial, which we carelessly overlooked.

The corrected **Author Contributions Statement** appears below.

“YZ wrote the manuscript. PH, XC, and JJ designed the research. YZ, PH, HW, and JJ performed the research. XC, YH, NS, and KS organized the clinical trial. YZ and JW analyzed the data.”

The authors apologize for these errors and state that they do not change the scientific conclusions of the article in any way. The original article has been updated.
