In the original article, in **Appendix 1** there was a mistake in “Primers sets for qPCR” as published. The names (only) of the Primers sets of the SLC15A1b and SLC15A2 were mixed and appear incorrectly in the table.

The corrected “Primers sets for qPCR” appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
