#### A Corrigendum on

Chrysophanol Relieves Cisplatin-Induced Nephrotoxicity via Concomitant Inhibition of Oxidative Stress, Apoptosis, and Inflammation

By Ma, S., Xu, H., Huang, W., Gao, Y., Zhou, H., Li X and Zhang W. (2021). Front. Physiol. 12:706359. doi: 10.3389/fphys.2021.706359

## **Error in Figure**

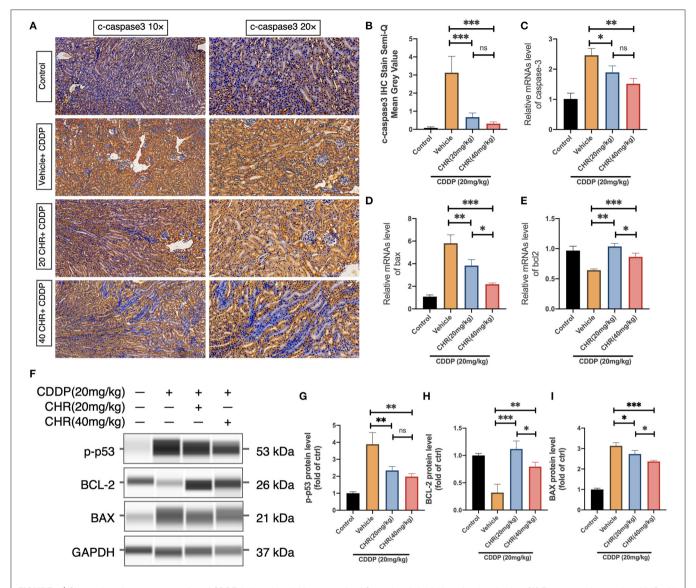

In the original article, there was a mistake in **Figure 4** as published. The wrong figure was published. The corrected capillary blot of BAX and GAPDH in **Figure 4F** is now consistent with the original data submitted during initiation validation process. The corrected **Figure 4** appears below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
