Front. Plant Sci. 8:796. doi: 10.3389/fpls.2017.00796 Keywords: chloroplast targeting, EHEC, EPEC, fluorescence microscopy, T3SS, translocated intimin receptor, transplastomic, subunit vaccine

## A corrigendum on

Co-expression with the Type 3 Secretion Chaperone CesT from Enterohemorrhagic *E. coli* Increases Accumulation of Recombinant Tir in Plant Chloroplasts

by MacDonald, J., Miletic, S., Gaildry, T., Chin-Fatt, A., and Menassa, R. (2017). Front. Plant Sci. 8:283. doi: 10.3389/fpls.2017.00283

In the original article, there was a mistake in the Supplementary Data (Data Sheet 1) as published. The sequences given for RbcS-TP were incorrect, and KDEL sequences were included that should not have been there. The corrected Data Sheet 1 is uploaded.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The corrected supplementary material has been updated on the original article page.
