## KEYWORDS

ketamine-assisted psychotherapy, healthcare providers (HCP), resilience, psychedelic therapy, group therapy, community of practice, post-traumatic stress disorder (PTSD), depression

## A corrigendum on

[A Cohort-Based Case Report: The Impact of Ketamine-Assisted Therapy Embedded in a Community of Practice Framework for Healthcare Providers With PTSD and Depression](#)

by Dames, S., Kryskow, P., and Watler, C. (2022). *Front. Psychiatry* 12:803279.  
doi: 10.3389/fpsy.2021.803279

In the published article, there was an error in [Figure 2](#) as published. The PTSD labels in the pre- and post- rows of the figure were incorrectly positioned underneath the Anxiety score, and vice versa. The corrected version of [Figure 2](#) and its caption is published below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
