## KEYWORDS

DBS (deep brain stimulation), suicidality, neuroethical considerations, multiple system atrophy Parkinsonian predominant type, case report

## A Corrigendum on

### Deep brain stimulation and suicide attempts in treatment-resistant patients: a case report and neuroethical analysis

by D'Imperio A and Ienca M (2024) *Front. Psychiatry* 15:1398777. doi: 10.3389/fpsyt.2024.1398777

In the published article, there was an error in affiliations. Affiliation 2 read as: “Institut für Geschichte und Ethik der Medizin, Technische Universität München, Munich, Switzerland”. The affiliation should have been written as “Institut für Geschichte und Ethik der Medizin, Technische Universität München, Munich, Germany”.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
