An erratum on

Navigating comics: an empirical and theoretical approach to strategies of reading comic page layouts

by Cohn N. (2013). *Front. Psychol.* 4:186. doi: 10.3389/fpsyg.2013.00186

This General Commentary provides a corrected version of the caption for **Figure 2**. The text should read:

(A) Canonical grid layout stereotypically read in a “Z-path.” (B) Layout where a vertical panel “blocks” the

creation of a row of panels. (C) Layout where panels are separated by a wide space. (D) Layout where panels overlap each other. (E) Layout where panels are staggered to no longer retain a contiguous gutter.

In addition, the link to the supplementary analysis of the Steranko page has been changed to: http://www.visuallanguagelab.com/P/ECS_Supplement.pdf
