A Corrigendum on

The Impact of the Parental Support on Risk Factors in the Process of Gender Affirmation of Transgender and Gender Diverse People

by Seibel, B. L., de Brito Silva, B., Fontanari, A. M. V., Catelan, R. F., Bercht, A. M., Stucky, J. L., et al. (2018). *Front. Psychol.* 9:399. doi: 10.3389/fpsyg.2018.00399

In the original article, there was a mistake in **Table 3** as published. In the original version of the table, total respondents of “have you ever been homeless?” variable was 416 when in fact it is 422. The answer “yes” to that question had originally 4 respondents when in fact it is 54. The corrected **Table 3** appears below. The authors apologize for these errors and state that this does not change the scientific conclusions of the article in any way.

The original article has been updated.

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

Now one can read:
TABLE 3 | Brazilian TGD housing status.

	<i>n</i> (%)
How often have you had to move away from your family or friends because you're transgender? (<i>N</i> = 410)	
Never	246 (60.00)
Once or twice	76 (18.54)
Sometimes	42 (10.24)
Many times	46 (11.22)
Have you ever been homeless? (<i>n</i> = 422)	
Yes	54 (12.80)
No	368 (87.20)
Thinking about your most recent or current episode of homelessness, where did you sleep or where are you sleeping? (<i>n</i> = 54)	
In a shelter	6 (11.11)
In a motel or hotel	18 (33.33)
Outside on the street	12 (22.22)
Outside in parks	4 (7.41)
In a car	18 (33.33)
With a friend or friends	21 (38.88)
With a family member	6 (11.11)
Other	6 (11.11)
