## A Corrigendum on

**Affective Norms for 4900 Polish Words Reload (ANPW\_R): Assessments for Valence, Arousal, Dominance, Origin, Significance, Concreteness, Imageability and, Age of Acquisition**  
by Imbir, K. K. (2016). *Front. Psychol.* 7:1081. doi: 10.3389/fpsyg.2016.01081

In the original article, there was a mistake in **Supplementary Material Data Sheet 1** as published. Incorrect values were matched with 193 words (out of 4,905), also two phrases were missing from the table, that were included in the original study, namely *na zewnątrz (outside)* and *z powrotem (back)*. This issue affected all variables in the dataset, however, the data analysis was based on a correct dataset, as the errors only occurred during the preparation of the Data Sheet for the publication. Below are listed all of the errors in previous version of the appendix to ANPW\_R database, the numbers are based on the original numbering in the published appendix.
