University of Seville, Seville, Spain

## KEYWORDS

language evolution, language structural complexity, language uses, prehistory, aggression, human self-domestication

## A Corrigendum on

[How \(and why\) languages became more complex as we evolved more prosocial: the human self-domestication view](#)

by Benítez-Burraco, A. (2025). *Front. Psychol.* 15:1499994. doi: 10.3389/fpsyg.2024.1499994

In the published article, there was an error in the **Funding statement** and some funding information was omitted. Original Funding statement:

The author(s) declare that financial support was received for the research, authorship, and/or publication of this article. This research was supported by grant PID2023-147095NB-I00 funded by MCIN/AEI/10.13039/501100011033.

The correct Funding statement appears below.

## Funding

The author declares that financial support was received for the research and/or publication of this article. This research was supported by grant PID2023-147095NB-I00 funded by MICIU/AEI/10.13039/501100011033 and by ERDF/EU.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
