## A Corrigendum on

### Snapshot of knowledge and stigma toward mental health disorders and treatment in Spain

by Varaona, A., Molina-Ruiz, R. M., Gutiérrez-Rojas, L., Perez-Páramo, M., Lahera, G., Donat-Vargas, C., and Alvarez-Mon, M. A. (2024). *Front. Psychol.* 15:1372955. doi: 10.3389/fpsyg.2024.1372955

In the published article, there was an error in affiliation 6. Instead of “Medical Department, Madrid, Spain,” it should be “Medical Department Viatriis, Madrid, Spain.”

Additionally, in the published article, there was an error in the **Funding statement**. This statement originally stated: “The author(s) declare financial support was received for the research, authorship, and/or publication of this article. This research was funded by Viatriis. The funder was not involved in the study design, collection, analysis, interpretation of data, the writing of this article, or the decision to submit it for publication.” The correct Funding statement appears below.

## Funding

The author(s) declare financial support was received for the development of the research. This research was funded by Viatriis. The funder was not involved in the study

design, collection, analysis, interpretation of data, or the decision to submit it for publication.

Lastly, in the published article, there was an error in the **Acknowledgments** section. It was previously stated that, “No Viatris employee has been involved in data interpretation or manuscript writing”. This is incorrect as author Maria Perez-Páramo is an employee of Viatris.

A correction has been made to Acknowledgments. The corrected Acknowledgments section appears below.

## Acknowledgments

We thank Viatris for their sponsorship and support in conducting the research that yielded the data presented in this publication.

Finally, in line with the journal guidelines, the **Conflict of Interest** statement has been updated to be written as follows:

## Conflict of interest

MP-P was employed by Medical Department Viatris, Madrid, Spain.

The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.

The authors apologize for these errors and state that they do not change the scientific conclusions of the article in any way. The original article has been updated.

## Publisher's note

All claims expressed in this article are solely those of the authors and do not necessarily represent those of their affiliated organizations, or those of the publisher, the editors and the reviewers. Any product that may be evaluated in this article, or claim that may be made by its manufacturer, is not guaranteed or endorsed by the publisher.
