## A Corrigendum on

**Facilitating Collective Psychosocial Resilience in the Public in Emergencies: Twelve Recommendations Based on the Social Identity Approach**  
by Drury, J., Carter, H., Cocking, C., Ntontis, E., Tekin Guven, S., and Amlôt, R. (2019). *Front. Public Health* 7:141. doi: 10.3389/fpubh.2019.00141

There is an error in the **Funding** statement. The correct number for “Economic and Social Research Council” is “RES-000-23-0446.”

Additionally, in the original article, we neglected to include the data-sets for empirical papers used in this review. A **Data Availability** Statement has therefore been added to the article text:

“The datasets analyzed for this study can be found in the UK Data Service SN: 5987, <http://doi.org/10.5255/UKDA-SN-5987-1>.”

Lastly, the number for footnote 5 was incorrectly positioned. It should be positioned at the last paragraph of subsection **Keep the Disaster Community Alive** and not in the last paragraph of the previous subsection. A correction has therefore been made to move the footnote to the correct position.

The authors apologize for these errors and state that they do not change the scientific conclusions of the article in any way. The original article has been updated.
