KEYWORDS

osteoporotic fractures, older adult care, rural China, socioeconomic disparities, policy awareness, family support

A Correction on

Health outcomes and care needs after osteoporotic fractures in rural Chinese older adults: policy implications

by Zhu, Q., and Ran, C. (2025). *Front. Public Health* 13:1601892. doi: 10.3389/fpubh.2025.1601892

In the published article, there was an error in the legends for Table 1 and Table 2 as published. The captions erroneously stated the study population as “ $N = 3,660$ ”. The corrected legend appears below.

Table 1. Characteristics of study participants in rural China ($N = 3,600$).

Table 2. Characteristics of study participants by received help after fracture, life impact, fracture history, and osteoporosis treatment in rural China ($N = 3,600$).

The original article has been updated.
