Alberto Cardellino, Alessio Rocchi, Enrico Migo Hoffman, Corrado Pavan and Dimitrios Kanoulas were not included as authors in the published article. Here is the updated Author contributions: MF, LM, AS, AR, EMH, AC, DK, CP, and LN worked on the design of the global architecture and on the network. LM, MF, AR, EMH, AC, and NT designed and developed GYM and the HAL. AS and CP developed the operator control station GUI and many control modules. LP and NT coordinated and advised other authors on all the aspects of this work.

In the original article, there was an error. Corrado Pavan and Alberto Cardellino were included in the Acknowledgments section. A correction has been made to Acknowledgments:

This work is supported by the European commission project Walk-Man EU FP7-ICT no. 611832. The authors would like to thank Stefano Cordasco and Alessio Margan for their work on the design and implementation of electronic boards and firmware.

The authors apologize for these errors and state that these do not change the scientific conclusions of the article in any way.

The original article has been updated.

Conflict of Interest Statement: The authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.
