KEYWORDS

video-meeting, we-mode, co-representation, joint Simon effect, spontaneous visual taking

A Correction on

Psychological evaluation of a virtual connected room from the perspective of we-mode

by Harada Y, Sato Y, Kambara A, Oki K, Takahashi R, Utsumi N, Tsuji R and Sato Y (2025). *Front. Virtual Real.* 6:1563866. doi: 10.3389/frvir.2025.1563866

Affiliation “Center for Social and Psychological Research of Metaverse, Kyoto University of Advanced Science, Kyoto, Japan” was omitted for author Yuki Harada. This affiliation has now been added for author Yuki Harada.

Reference Gallotti and Frith, 2013 was erroneously cited, whereas references Arima and Harada (2023), Harada et al. (2025), and Arima et al. (2025) were omitted. A correction has been made to Section 4 Discussion, paragraph 2: “This suggests that interactions through the virtual connected room promote the co-representation of task rule, a type of we-mode (Arima and Harada, 2023; Arima et al., 2025; Harada et al., 2025).” The references have been added to the Reference list as follows:

Arima, Y., and Harada, Y. (2023). Competition or cooperation: classification in a VR environment based on sensor data. In *Proc. Int. Conf. Collab. Technol. Soc. Comput.*, Cham: Springer, pp. 144–151. doi:10.1007/978-3-031-42141-9_10.
